

Tell Us about *You*

Thank you for giving us an opportunity to meet you and learn about your business.

We look forward to discover more about your goals, and issues. More importantly, we wish to align ourselves and our services to help you succeed.

1. What are your priorities and issues looking to solve?

2. Have you quantified the impact or economic consequences of not solving these issues?

3. Have you allocated a budget to solve these issues? If so, what is the range of investment you feel is adequate to get your business back on track?

Additionally, are there any other Business Conditions, Constraints, or Elements specific to your Organization you would like to share?
